

MONGOLIA: STEPPES & GOBI DESERT BIRDING

13-24 MAY 2026

13-24 MAY 2027

Henderson's Ground Jay (photo by John Geeson).

Mongolia is one of the most exciting and remote birding destinations in Asia and this small-group tour (without real camping like some operators) will allow you to see a wide variety of birds in spectacular natural landscapes. We will traverse the country, visiting the Siberian taiga forests, the vast seamless steppe grasslands, a range of fresh and brackish lakes, the Gobi Desert and impressive mountains. We will stay in local-style comfortable yurts (here called gers), offering an incredible and authentic Mongolian experience.

The country has been made famous worldwide by Genghis Khan (Chinggis Khaan) and the Mongol hordes but the draw of some highly sought and poorly known bird species has also kept birders and wildlife enthusiasts enthralled. This is also one of the best destinations for Snow Leopard and other mammals, please see [here](#) for big cat and other Mongolia tours we may offer from time to time or [contact us](#) for a custom tour.

This Mongolian birdwatching tour offers the ultimate adventure to find an array of dream birds from the Eastern Palearctic. We will start (and end) our Mongolian birding adventure in Ulaanbaatar (also widely known as Ulan Bator). We will visit several different areas and key habitats in the region where we will look for a range of important target species. On arrival in the city some of our target birds should be waiting for us near our hotel, such as **Azure Tit**, **Azure-winged Magpie**, **Amur Falcon** and **Long-tailed Rosefinch**.

*The beautiful **Amur Falcon** is an incredible long-distance migrant – this is a male.*

We will then travel to Gun Galuut Nature Reserve in the steppe grassland habitats. In this park, we will search for **Saker Falcon**, **Steppe Eagle**, **Greater Spotted Eagle**, **Golden Eagle**, **Bearded Vulture** (Lammergeier), **Cinereous Vulture**, **Pere David's Snowfinch**, **Meadow Bunting** and **Pied Wheatear** to name a few possibilities. We might also find **White-naped Crane**, **Demoiselle Crane**, **Black Stork**, **Swan Goose**, **Bar-headed Goose**, **Stejneger's Scoter**, **Asian Dowitcher**,

Pallas's Reed Bunting, Lanceolated Warbler, Citrine Wagtail, and Red-throated Thrush. With luck we may even encounter the Critically Endangered (BirdLife International) **Siberian Crane**.

Our next stop on the tour will take us to some incredible Siberian taiga forest where we will look for **Black-billed Capercaillie, Hazel Grouse, Ural Owl, Siberian Rubythroat, Red-flanked Bluetail, Chinese Bush Warbler, Black Woodpecker, White-backed Woodpecker, Spotted Nutcracker,** and many more high-latitude forest birds along the way.

After the forests of the taiga we will do something totally different, birding the famed Gobi Desert! Here, yet more targets await us, with mouthwatering prospects of breeding-plumaged **Oriental Plover** and **Greater Sand Plover**, along with **Pallas's Sandgrouse, Henderson's** (Mongolian) **Ground Jay, Desert Wheatear, Asian Desert Warbler,** and **Saxaul Sparrow** to name a few.

The final stop of the tour (before returning to Ulaanbaatar) will be in the high mountains where we will look for Mongolia's sole endemic, **Kozlov's Accentor**, the monotypic **Wallcreeper**, and the secretive **Altai Snowcock**. Other specials here include **Himalayan Beautiful Rosefinch, Mongolian Finch,** and **White-winged Snowfinch**.

In addition to these exciting birds we might also see an assortment of interesting mammals such as **Grey Wolf, Mongolian Gazelle, Siberian Ibex,** and **Argali** (mountain sheep).

Itinerary (12 days/11 nights)

Day 1. Arrival in Ulaanbaatar

You will be met at the Chinggis Khaan International Airport after your morning arrival in Ulaanbaatar, the capital of Mongolia, and you will be transferred to your hotel nestled on the banks of the Tuul River. If you cannot arrive this morning or would like to arrive early to acclimatize or explore the city, we can arrange extra accommodation for you.

We will have a welcome lunch together and then we will go to some woodland near the river in the afternoon where we will look for **Azure Tit**, **Azure-winged Magpie**, **Amur Falcon**, **White-crowned Penduline Tit**, **Hawfinch**, **Long-tailed Rosefinch**, **Red-throated Thrush**, and perhaps some waterfowl in the nearby gravel pit ponds.

Overnight: Ulaanbaatar

Saker Falcon is a huge falcon and makes its home in the steppes and mountains of Mongolia.

Days 2 - 3. Gun-Galuut Nature Reserve

We will spend time birding in the picturesque Gun-Galuut Nature Reserve. The reserve was founded in 2003 to protect the endangered wildlife and their habitat along the River Kherlen. The reserve is made up of high mountains and pretty lakes teeming with birds and surrounded by grassland full of beautiful and colorful flowers, all providing important breeding and foraging grounds for many of our target species.

There are several birds of global significance in this area and we will spend time trying to find as many of them as possible. Potential highlights include **Siberian Crane** (Critically Endangered,

BirdLife International), **White-naped Crane**, **Demoiselle Crane**, **Common Crane**, **Black Stork**, **Swan Goose**, **Bar-headed Goose**, **Whooper Swan**, **Stejneger's Scoter**, **Eastern Spot-billed Duck**, **Asian Dowitcher**, **White-winged Tern**, **Common Tern** (the *longipennis* subspecies), **Vega Gull**, **White-tailed Eagle**, **Eastern Marsh Harrier**, **Amur Falcon**, **Saker Falcon**, **Pere David's Snowfinch**, **Meadow Bunting**, **Pallas's Reed Bunting**, **Lanceolated Warbler**, **Paddyfield Warbler**, **Oriental Reed Warbler**, **Northern Wheatear**, **Pied Wheatear**, **Isabelline Wheatear**, **Citrine Wagtail**, and **Red-throated Thrush**.

Interesting raptors we might encounter, include **Saker Falcon**, **Upland Buzzard**, **Golden Eagle**, **Steppe Eagle**, **Bearded Vulture** (Lammergeier), and **Cinereous Vulture**. Some of the further passerines possible in the area are **Rock Sparrow**, **Red-billed Chough**, **Pere David's Snowfinch**, **Richard's Pipit**, **Asian Short-toed Lark**, **Mongolian Short-toed Lark** and **Common Rock Thrush**.

Overnight: Steppe Nomads ger camp

*Large flocks of **Demoiselle Crane** may be seen on this tour.*

Days 4 - 5. Gorkhi Terelj National Park

We will drive to Gorkhi Terelj National Park and check into a tourist ger camp near the birding site for a two-night stay to explore this fascinating area. Here we will look for forest and forest/steppe birds, including the tough and highly sought **Black-billed Capercaillie** and **Chinese Bush Warbler**, along with plenty of other quality birds like **Siberian Rubythroat**, **Daurian Partridge**, **Ural Owl**, **Oriental Cuckoo**, **Eurasian Three-toed Woodpecker**, **Red-flanked Bluetail**, **Daurian Redstart**, **Dark-sided Flycatcher**, **Taiga Flycatcher**, **Black-faced Bunting**, **Stejneger's Stonechat**, and **White-cheeked Starling**.

***Black-billed Capercaillie** will be another big target bird during our time in Gorkhi Terelj National Park (photo Natural Heritage Center of Mongolia).*

Birders who have spent time in the non-breeding season in Thailand (e.g. on our **Northern Thailand – Spectacular Resident and Migrant Birds** birding tour) or chased rare birds in the UK or continental Europe will be familiar with the challenge of *Phylloscopus* warbler identification. In Gorkhi Terelj you have the opportunity of seeing breeding and singing **Arctic Warbler, Greenish Warbler, Two-barred Warbler, Yellow-browed Warbler, Hume's Leaf Warbler, Pallas's Leaf Warbler, and Dusky Warbler** which makes identification less of a challenge!

Other birds we will look for in the Siberian boreal forest (taiga) include **Northern Goshawk, Eurasian Sparrowhawk, Eurasian Hoopoe, Black Woodpecker, Grey-headed Woodpecker, White-backed Woodpecker, Spotted Nutcracker, Ortolan Bunting, Pine Bunting, Paddyfield Warbler, Oriental Reed Warbler, Lesser Whitethroat, Willow Tit, and Common Redstart.**

Overnight: Tourist ger camp

*We will look for **Ural Owl** while in the taiga forests.*

*Another target in the taiga forests will be the pretty **White-backed Woodpecker**.*

Day 6. Bayanzag

Today we will take a flight to Dalanzadgad and then drive to the Bayanzag or ‘Flaming Cliffs’, famed for the world’s first discovery of dinosaur eggs in the 20th century. This site is also great for

a few prized birds like **Pallas's Sandgrouse**, **Oriental Plover**, **Long-legged Buzzard**, **Great (Steppe) Grey Shrike**, **Horned Lark**, **Isabelline Wheatear**, and **Desert Wheatear**. There are several mammals possible in the area too such as **Goitered Gazelle**, **Gobi Jerboa**, **Great Gerbil**, and with luck maybe even some dinosaur bones!

Overnight: Tourist ger camp

Pallas's Sandgrouse can be found in the Gobi Desert (photo Natural Heritage Center of Mongolia).

Days 7 - 8. Khongoryn Els

We have a long drive today as we travel to the 'Singing Sands', the famous dunes of Khongoryn Els, located within the Gobi Gurvansaikhan National Park (i.e. the Gobi Desert!). We will make stops along the way for any interesting birds and for the incredible sandstone hills scenery along the way. Once we arrive at our ger camp, we will be able to relax and unwind with spectacular views of endless desert steppe with massive sand dunes set against the grandeur of the high mountains. We will have to pull ourselves away from these views to find the many Gobi Desert specialties such as **Henderson's Ground Jay**, **Saxaul Sparrow**, **Hill Pigeon**, **Pallas's Sandgrouse**, **Lesser Kestrel**, **Long-legged Buzzard**, **Great (Steppe) Grey Shrike**, **Desert Wheatear**, and **Asian Desert Warbler**.

Overnight: Tourist ger camp

Days 9 - 10. Yolyn Am

We will drive through yet more beautiful scenery as we head to Yolyn Am, a deep and narrow gorge in the Gurvan Saikhan Mountains in the Gurvan Saikhan National Park. We hope to see **Bearded Vulture** (Lammergeier) and **Himalayan Vulture** at close range, along with **Kozlov's Accentor**, **Sulphur-bellied Warbler**, **Himalayan Beautiful Rosefinch**, and the monotypic **Wallcreeper**.

Other species we will look for over these two days will include **Chukar Partridge**, **Cinereous Vulture**, **Golden Eagle**, **Eurasian Eagle-Owl**, **Saker Falcon**, **Barred Warbler**, **Brown Accentor**, **Güldenstädt's Redstart**, **Eversmann's Redstart**, **Asian Rosy Finch**, **Brandt's Mountain Finch**, **White-winged Snowfinch**, **Mongolian Finch**, **Godlewski's Bunting**, **Grey-necked Bunting**, **Eurasian Crag Martin**, and **Common Rock Thrush**. We will also search for **Altai Snowcock**, which is one of the more challenging species for the trip. **Siberian Ibex** can be found in the mountains here too.

Overnight: Tourist ger camp

Wallcreeper — always a highlight.

Day 11. Travel to Ulaanbaatar

This is essentially a travel day as we will take a flight back to Ulaanbaatar from Dalanzadgad. Depending on the time of the flights there may be time for some additional birding near Dalanzadgad or Ulaanbaatar.

Overnight: Ulaanbaatar

Day 12. Departure from Ulaanbaatar

This is a non-birding day with your departure home from Ulaanbaatar. Depending on your flight schedule you may have time to explore the city. If you would like to extend your stay in Mongolia, we can easily arrange for this.

Overnight: Not included

Please note that the itinerary cannot be guaranteed as it is only a rough guide and can be changed (usually slightly) due to factors such as availability of accommodation, updated information on the state of accommodation, roads or birding sites, and the discretion of the guides and other factors. In addition, we sometimes have to use a different guide from the one advertised due to tour scheduling and other factors.

Duration: 12 days

Group Size: 2 - 8

Dates: 13 - 24 May 2026

13 - 24 May 2027

Start: Chinggis Khaan International Airport, Ulaanbaatar

End: Chinggis Khaan International Airport, Ulaanbaatar

Price (includes domestic flights):

US\$9,845 per person sharing – based on 2 - 8 participants (2026)

US\$10,927 per person sharing – based on 2 - 8 participants (2027)

Single Supplement: US\$910 (2026)

US\$1,010 (2027)

Price includes:

Domestic flights (Ulaanbaatar to Dalanzadgad and Dalanzadgad to Ulaanbaatar)

All accommodation (as described above - 2 nights in hotels and 9 nights in tourist ger camps – see important note on accommodation below)

Meals (from lunch on day 1 until breakfast on day 14)

Drinking water – please bring a refillable water bottle

Expert tour leader

Local bird and wildlife guide/trackers fees

National park/birdwatching reserve/protected areas entrance fees

All ground transport and tolls/taxes while on tour, including airport pick-up and drop-off

Price excludes:

Flights to/from Chinggis Khaan International Airport, Ulaanbaatar

Visa

Departure tax

Items of a personal nature, e.g. gifts, laundry, internet access, phone calls, etc.

Any pre- or post-tour accommodation, meals, or birding/sightseeing/monument excursions

Soft/alcoholic drinks

Camera (still/video) permits

Personal travel insurance

Gratuities (please see our [tipping guidelines blog](#))

Accommodation note:

We will spend two nights in hotels (in Ulaanbaatar at the beginning and end of the tour) but the majority (nine nights) of the tour accommodation will be spent in tourist ger camps with all equipment provided (gers are the local name for yurts). Our selected ger camps are the highest of local standards. The camps provide gers for accommodation; each ger usually has 2-4 beds, a stove, chairs, a table, and drawers inside. Due to the remoteness, bathrooms are shared, and electricity is provided at limited hours, usually between 7-10 pm. We will mostly stay in comfortable and clean ger camps on shared basis. But we will try to book the gers closest to the bathrooms. Please note that en suite ger camps are limited in Mongolia, please advise us on booking if you require a ger all to yourselves and we will try and book this where possible. The meals are served in a restaurant, usually an immense ger or a one-story building. We do not stay in small, portable tents (such as those you might use when you go camping at home) like some operators in Mongolia put you in. We believe you can see the birds and amazing country yet still remain relatively comfortable at the same time.
